OPERATION THEATRE CONTROL PANEL

Operation Theater Control Panels are used to help the hospitals meet electricity safety codes by controlling high & low voltage systems. The 'Membrane' type OT control panel is configured to incorporate all the service required in an operation theatre.

Features of our Operation Theatre Control Panels:

- The medical gas alarm panel
- HEPA filter stands module
- Room pressure indicator
- Temperature and Humidity control

X RAY VIEWING SCREEN

X-ray viewing Screen is one of the basic requirements of any hospital or nursing home. This special screen is used to view the x-ray print clearly to detect the actual problem. For a better display of the x-ray, this viewing screen presented by modular healthcare system has no match in quality and outcome. This is not just an ordinary x-ray viewing screen or board; this is an example of the growth of technology.

Sales & Service of Modular OT, MGPS and Total Hospital Furniture

SURGICAL SCRUB STATIONS

Modular Healthcare System presents a wide range of compact surgical scrub stations or sink, which are specially designed for the use in Operation Theater. Its ease and convenience provide a most comfortable use to surgeons for pre-OT scrub up. We provide seamless and stainless construction along with the use of heavy gauge type 304 high-quality steel. Our surgical scrub stations or sinks provide front access, with the removable panel to control the value of water.

We understand the value of the work of OT, that's why as a surgical scrub stations manufacturer; we have designed hand free operation that includes infrared sensors, with adjustable benefit.

STORAGE UNIT

The storage units play an important role in each hospital. These units need to be very strong and safe as per security terms decided for the medical industry. At Modular Healthcare Systems, we provide hospital storage unit that is made of 1.50 mm thick EGP zinc coated stainless steel panel. We use high-pressure lamination technique for better finish and durability of the shiny presentation.

High-quality glass doors, glass racks and standard locking system for perfect security make our storage units highly secured.

Sales & Service of Modular OT, MGPS and Total Hospital Furniture

Mini Scrub Station

The time has changed and the modular operation theatres are the demand of each hospital. We at Modular Healthcare Systems are dedicated to provide the best technological products for modular operation theatres. We also provide a wide range of supreme quality mini scrub stations for each section of the hospital, for example, modular OT, ICU, wards, and other required areas.

ICU Track & Curtains

Modular Healthcare System presents the best medical equipment for the industry. In functioning, quality, durability, and pricing there is no match for equipment supplied by us. The days of the old styling of ICU track and curtains are over. Keeping pace with the changing demands of hospitals, we now manufacture and provide the innovative ICU track and curtains.

As the technology and science have done great progress, our health care industries are also improving their work system for better performance.
